5200 Bano standard washbasin with grab bar

Bano standard washbasin is functionally designed to meet the needs of the care home resident. An integrated grab bar improves safety and confidence in everyday tasks and moving. Adapted for wheelchair users there is also a run off in the front of the washbasin, which is very useful in connection with brushing teeth, washing face, etc. This is especially important for users sitting in a chair or in a wheelchair.

Flexible outflow pipe

The washbasin is supplied with the 52094 Bano flexible outflow pipe, which can be installed against the wall to provide extra access for wheelchair users. There is plenty of space for hygiene articles on either side of the washbasin.

With or without height adjustment

The washbasin can be supplied with or without manual height adjustment. The adjustable bracket allows the height of the washbasin to be adjusted from 700–900mm. The standard height is 800mm.

Load tested up to 300kg.

Materials

- Washbasin: crushed marble with gelcoat surface
- Grab bar: anti-bacterial, powder-coated aluminum and nylon
- Fixing brackets: natural anodized aluminum alloy
