Bano wall grab bars

bilde mangler

Bano wall grab bars

Improved hygiene

Delivered without joints for improved hygiene and simpler installation. Thickness of 32mm combined with anti-bacterial powder coating ensures optimal grip. 40mm distance between the bar and the wall means a better design and greater confidence for the user.

Bano supplies a moveable shelf specially designed for the shower rail and grab bar.

Load tested up to 500kg.

Materials

• Anti-bacterial, powder-coated aluminum, nylon and stainless-steel screws
