bilde mangler

5311 Bano grab bar - for cabinets

The grab bar together with the cabinet have been specially designed to withstand a load of 400kg.

Delivered without joints for improved hygiene and simpler installation. It is coated with anti-bacterial puro-coat for optimal grip. Bano supplies a moveable shelf specially designed for the shower rail and grab bars.

Load tested up to 400kg.

Materials

- Anti-bacterial, powder-coated aluminum and nylon.
