5400 Bano single wall hook

Holistic design

Bano accessories have been manufactured to a holistic design to ensure that all components match in the bathroom.

It is more satisfying to use a bathroom in which all the elements match. In a Bano bathroom, this also applies to all details, such as hooks for towels and flannels.

Hangs properly

The hooks are designed to ensure that towels hang securely and properly. Bano single hook is a perfect solution when it is necessary to have towels hanging within easy reach in several places in the bathroom.

Bano single wall hook has a solid cover which helps reduce buildup of dust and dirt. It is therefore easier to clean and more hygienic.

Materials

- Hook: cast in solid nylon
