## 58820-01 16 Bano shower head and hose

### Soft and flexible shower hose

The shower head can be move up and down on the shower rail to the desired height. This mean less water sprayed when the users are sitting on the shower seat. The users can easily wash their body without wetting their hair. The shower head features a special filter to prevent the buildup of lime scale and to improve hygiene. The shower hose itself is soft and flexible, which makes it pleasant to use.

### Materials

- Shower nozzle: ABS plastic
- Shower handle: chromed ABS plastic
- Hose: stainless steel
- Conical connection nut: chromed ABS plastic
- Connection nut: chromed brass
